Subject index of volume 114

Adaptation: Pneumonia; Mortality; Ageing; Distribution of probability of death **114, 15**

Ageing: Endothelin-1; Rat articular chondrocyte; Growth fractions; Cytokines; Nitric oxide **114, 37**

Ageing: Melatonin; Pituitary; Median eminence; Gonadotropins; Prolactin **114, 173**

Ageing: Pneumonia; Mortality; Adaptation; Distribution of probability of death **114, 15**

Ageing: Telomerase; Telomere; Cancer **114, 69**

Ageing: Calorie restriction; Retina; Neuron; Brown Norway rat **114, 133**

Ageing: CD45 isoforms; T lymphocyte; Sialylation **114, 21**

Ageing: Mitochondrion; Free radicals; Oxidation **114, 201**

Ageing: Nerve blood flow; Endothelin-1; Noradrenaline; Angiotensin-II **114, 5**

Ageing: Nuclear factor κ B; Heme oxygenase-1; Reactive oxidative species; Transcriptional regulation **114, 49**

Ageing: PKR protein kinase; Mouse **114, 123**

Ageing: Senescence-accelerated mouse (SAM); Learning dysfunction; Muscarinic acetylcholine receptor; Protein kinase C; Hippocampus **114, 191**

Ageing: Structure; Vestibular nuclei; Morphometric; Cytoarchitectonic **114, 149**

Ageing: Thymus; Transgenic; Knock-out; T cell receptors **114, 101**

Ageing: TNF- α ; Prostaglandin; Nitric oxide; Macrophage **114, 79**

Ageing: Tubular aggregates; Creatine kinase; Senescence-accelerated mouse; Skeletal muscle **114, 89**

Angiotensin-II: Ageing; Nerve blood flow; Endothelin-1; Noradrenaline **114, 5**

ATP levels: RPE cells; Glycolysis **114, 185**

Brown Norway rat: Calorie restriction; Ageing; Retina; Neuron **114, 133**

Calorie restriction: Ageing; Retina; Neuron; Brown Norway rat **114, 133**

Cancer: Telomerase; Telomere; Ageing **114, 69**

CD45 isoforms: Ageing; T lymphocyte; Sialylation **114, 21**

Creatine kinase: Tubular aggregates; Senescence-accelerated mouse; Skeletal muscle; Ageing **114, 89**

Curcuma longa: Human-plasma fibrinogen; Hydroalcoholic extracts **114, 207**

Cytoarchitectonic: Structure; Vestibular nuclei; Morphometric; Ageing **114, 149**

Cytokines: Endothelin-1; Rat articular chondrocyte; Ageing; Growth fractions; Nitric oxide **114, 37**

- Distribution of probability of death:** Pneumonia; Mortality; Adaptation; Ageing 114, 15
- Endothelin-1:** Aging; Nerve blood flow; Noradrenaline; Angiotensin-II 114, 5
- Endothelin-1:** Rat articular chondrocyte; Ageing; Growth fractions; Cytokines; Nitric oxide 114, 37
- Free radicals:** Mitochondrium; Aging; Oxidation 114, 201
- Glycolysis:** RPE cells; ATP levels 114, 185
- Gonadotropins:** Ageing; Melatonin; Pituitary; Median eminence; Prolactin 114, 173
- Growth fractions:** Endothelin-1; Rat articular chondrocyte; Ageing; Cytokines; Nitric oxide 114, 37
- Heme oxygenase-1:** Aging; Nuclear factor κ B; Reactive oxidative species; Transcriptional regulation 114, 49
- Hippocampus:** Senescence-accelerated mouse (SAM); Aging; Learning dysfunction; Muscarinic acetylcholine receptor; Protein kinase C 114, 191
- Human-plasma fibrinogen:** *Curcuma longa*; Hydroalcoholic extracts 114, 207
- Hydroalcoholic extracts:** *Curcuma longa*; Human-plasma fibrinogen 114, 207
- Knock-out:** Aging; Thymus; Transgenic; T cell receptors 114, 101
- Learning dysfunction:** Senescence-accelerated mouse (SAM); Aging; Muscarinic acetylcholine receptor; Protein kinase C; Hippocampus 114, 191
- Macrophage:** Aging; TNF- α ; Prostaglandin; Nitric oxide 114, 79
- Median eminence:** Ageing; Melatonin; Pituitary; Gonadotropins; Prolactin 114, 173
- Melatonin:** Ageing; Pituitary; Median eminence; Gonadotropins; Prolactin 114, 173
- Mitochondrium:** Free radicals; Aging; Oxidation 114, 201
- Morphometric:** Structure; Vestibular nuclei; Cytoarchitectonic; Aging 114, 149
- Mortality:** Pneumonia; Adaptation; Ageing; Distribution of probability of death 114, 15
- Mouse:** Aging; PKR protein kinase 114, 123
- Muscarinic acetylcholine receptor:** Senescence-accelerated mouse (SAM); Aging; Learning dysfunction; Protein kinase C; Hippocampus 114, 191
- Nerve blood flow:** Aging; Endothelin-1; Noradrenaline; Angiotensin-II 114, 5
- Neuron:** Calorie restriction; Aging; Retina; Brown Norway rat 114, 133
- Nitric oxide:** Aging; TNF- α ; Prostaglandin; Macrophage 114, 79
- Nitric oxide:** Endothelin-1; Rat articular chondrocyte; Ageing; Growth fractions; Cytokines 114, 37
- Noradrenaline:** Aging; Nerve blood flow; Endothelin-1; Angiotensin-II 114, 5
- Nuclear factor κ B:** Aging; Heme oxygenase-1; Reactive oxidative species; Transcriptional regulation 114, 49
- Oxidation:** Mitochondrium; Free radicals; Aging 114, 201
- Pituitary:** Ageing; Melatonin; Median eminence; Gonadotropins; Prolactin 114, 173
- PKR protein kinase:** Aging; Mouse 114, 123
- Pneumonia:** Mortality; Adaptation; Ageing; Distribution of probability of death 114, 15
- Prolactin:** Ageing; Melatonin; Pituitary; Median eminence; Gonadotropins 114, 173
- Prostaglandin:** Aging; TNF- α ; Nitric oxide; Macrophage 114, 79

Protein kinase C: Senescence-accelerated mouse (SAM); Aging; Learning dysfunction; Muscarinic acetylcholine receptor; Hippocampus 114, 191

Rat articular chondrocyte: Endothelin-1; Ageing; Growth fractions; Cytokines; Nitric oxide 114, 37

Reactive oxidative species: Aging; Nuclear factor κ B; Heme oxygenase-1; Transcriptional regulation 114, 49

Retina: Calorie restriction; Aging; Neuron; Brown Norway rat 114, 133

RPE cells: ATP levels; Glycolysis 114, 185

Senescence-accelerated mouse (SAM): Aging; Learning dysfunction; Muscarinic acetylcholine receptor; Protein kinase C; Hippocampus 114, 191

Senescence-accelerated mouse: Tubular aggregates; Creatine kinase; Skeletal muscle; Aging 114, 89

Sialylation: CD45 isoforms; Aging; T lymphocyte 114, 21

Skeletal muscle: Tubular aggregates; Creatine kinase; Senescence-accelerated mouse; Aging 114, 89

Structure: Vestibular nuclei; Morphometric; Cytoarchitectonic; Aging 114, 149

T cell receptors: Aging; Thymus; Transgenic; Knock-out 114, 101

Telomerase: Telomere; Ageing; Cancer 114, 69

Telomere: Telomerase; Ageing; Cancer 114, 69

Thymus: Aging; Transgenic; Knock-out; T cell receptors 114, 101

T lymphocyte: CD45 isoforms; Aging; Sialylation 114, 21

TNF- α : Aging; Prostaglandin; Nitric oxide; Macrophage 114, 79

Transcriptional regulation: Aging; Nuclear factor κ B; Heme oxygenase-1; Reactive oxidative species 114, 49

Transgenic: Aging; Thymus; Knock-out; T cell receptors 114, 101

Tubular aggregates: Creatine kinase; Senescence-accelerated mouse; Skeletal muscle; Aging 114, 89

Vestibular nuclei: Structure; Morphometric; Cytoarchitectonic; Aging 114, 149
